To Whom It May Concern:

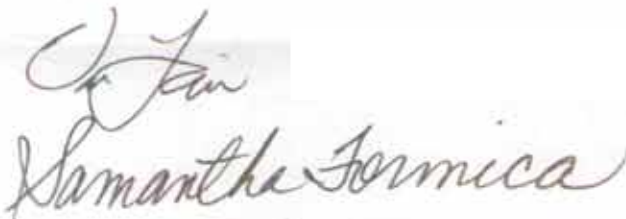

Our daughter began attending Tessa Grubb's in-home daycare when she was 19 months old. We had a less than positive experience at a local daycare center and we needed to find someone that we could trust. We decided to hire Tessa because of how kind and organized she was. We liked that she hired "helpers" from her church to help care for the children. We felt that our daughter would get a good experience playing with the other children, and also being around older people. We now have two daughters and we've continued going to Tessa's for nearly 2 ½ years.

Both of my children have some special needs and healthcare concerns. Our oldest daughter had, and the youngest currently has dysphasia and dairy/soy protein sensitivities. They both have asthma, as well. Tessa has been very supportive and caring of our children and she has provided them quality care. It has been invaluable to know that our children are well taken care of while we are at work.

Tessa has also been very flexible with her schedule. I am a registered nurse, so my schedule is not set in stone. I often am asked to come in extra days or change days, and Tessa is almost always able to accommodate.

Feel free to contact us directly with any further questions.

Sincerely,
